Welcome to Acorn Internet Service's Intell-a-Keeper™ Reporting System.

The following information will need to be defined in advance and provided to either the Acorn Development Staff or your own Development Firm in order to complete the installation of the Intell-a-Keeper™ Reporting System code.

Part 1: FTP Access - If you do not host with Acorn Internet Services, we will need FTP access to be able to update your source code. If you do host with Acorn Internet Services, you may skip this step. Note: FTP codes are Case Sensitive, so please indicate lower case and upper case letter clearly in your response.
